

What are the Next Steps

Inspire will help you easily import your e-learning and other training content, and track your learners' progress, assess content mastery and track results. Distance learners,

people that have stand-up or classroom training and want to convert to e-learning, people who want to track learning effectiveness, companies that want to develop or maintain an e-learning system and save money doing it.

How it works:

1. We look at your existing training
2. Map out your training work flow, work with your training dept
3. Assemble content, we can help, can quote pricing specific to your needs and budget
4. Upload elements to inspire
5. Create pages to pull in your content
6. Create student and course tracking pages
7. Deliver content and track results
